	*360 compute hours per month
	
	• Complete SQL data warehouse
	• Secure Data Sharing across regions / clouds
	• Always-on enterprise grade encryption in transit and at rest
	• Customer-dedicated virtual warehouses
	• Database replication
	• Multi-cluster warehouse
	  Up to 90 days of travel time
	  Annual rekeying of all encrypted data
	• Materialized views
	• Search optimization service
	• Dynamic data masking
	• External data tokenization
		Up to 2 TB Storage
		*480 compute credits per month
		
		• Complete SQL data warehouse
		• Secure Data Sharing across regions / clouds
		• Always-on enterprise grade encryption in transit and at rest
		• Customer-dedicated virtual warehouses
		• Database replication
		• Multi-cluster warehouse
		  Up to 90 days of travel time
		  Annual rekeying of all encrypted data
		• Materialized views
		• Search optimization service
		• Dynamic data masking
		• External data tokenization
			Up to 4 TB Storage
			*720 compute credits per month
			
			• Complete SQL data warehouse
			• Secure Data Sharing across regions / clouds
			• Always-on enterprise grade encryption in transit and at rest
			• Customer-dedicated virtual warehouses
			• Database replication
			• Multi-cluster warehouse
			  Up to 90 days of travel time
			  Annual rekeying of all encrypted data
			• Materialized views
			• Search optimization service
			• Dynamic data masking
			• External data tokenization

Users	Unlimited	Unlimited	Unlimited
Connectors	150+ Pre-built connectors to connect directly to data sources	150+ Pre-built connectors to connect directly to data sources	150+ Pre-built connectors to connect directly to data sources

Data Integration (DI)	• Data Preparation wizard:
	  Std. built-in re-usable Data transformations & Data Quality Rules
		• Data Preparation wizard:
		  Std. built-in re-usable Data transformations & Data Quality Rules
		• Pre-built template Objects
			• Data Preparation wizard:
			  Std. built-in re-usable Data transformations & Data Quality Rules
			• Pre-built template Objects

Advanced Analytics	• AI Powered Search and Analytics Platform with Analysis Consumption of up to 25M rows	• AI Powered Search and Analytics Platform with Analysis Consumption of up to 30M rows • Industry-specific Use Cases with pre-modeled Advanced Analytics Dashboards	• AI Powered Search and Analytics Platform with Analysis Consumption of up to 50M rows • Industry-specific Use Cases with pre-modeled Advanced Analytics Dashboards

Artificial Intelligence (AI)			• Ready-to-use R/Python ML environment for AI models and dashboards
			  • vCPU: 16
			  • Clock Speed: 3 GHz
			  • 220 hours of Compute
			
			• Industry-specific Use Cases with reference A.I models and Dashboards

Support	24hrs Support	24hrs Support	24hrs Support
Product Training	On-demand Product Training	On-demand Product Training	On-demand Product Training
Professional Services Consulting Base Package	5 days	10 days	15 days

* Compute hours are based on XS Virtual Data Warehouse where 1 Hour = 1 Credit
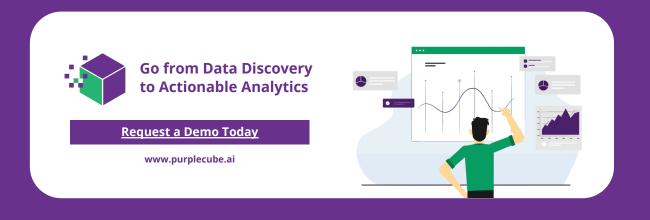

Dynamic scale up or scale down options are available

Terms and Conditions apply

Professional Consulting Services

With each subscription – you receive a certain quota (days) of professional consulting base services from the PurpleCube Experts.

Feature	Standard	Pro	Enterprise
Total Days in Package	5	10	15
Training	2	2	3 (1 day for AI)
On-Demand Best Practices	1	1	1
On-Demand Consultation (DI, BI) **Not Implementation	2	2	3
Template Walkthrough		0.5	0.5
Template Deep Dive & Changes		1.5	2.5
Template Modification **+- 5 attributes to one template		3 (1 template)	3 (1 template)
On-Demand Consultation (AI) **Not Implementation			2
